Valuable Land for Sale.

Under the authority of a decree of the Superior Court of Chancery held at Fredericksburgh, in the suit of Giles Fitzgugh against A. and J. Scholfield, the subscriber will offer at public sale, for cash, at Gooding's tavern, on the premises, on Tuesday the 18th March next, a valuable tract of Land, containing about 1616 acres, situate in Fairfax county, on both sides of the Little River Turnpike Road and of Acotank Road, about 9 miles from Alexandria & nearly the same distance from the city of Washington. Part of a large tract called Ravensworth, and formerly owned by Mr. Giles Fitzgugh. On this tract there is a very valuable Mill Seat, towards the improvement of which considerable progress has lately been made by digging out and preparing the races, & collecting a large portion of the building material which are now on the spot; the site also affords room for an extensive manufacturing establishment.

Most of the great roads leading to the towns above mentioned, fall into the Little River Turnpike Road a short distance above the land proposed to be sold, and a new turnpike road leading directly from the land to the city of Washington and Georgetown has lately been laid out and part of it finished. The soil is well adapted to farming and the use of plow and clover, and a large portion of the land is already well taken in clover. The various advantages this land possesses render it well worth the attention of enterprising men. A great number of lots have been laid off for a town proposed to be established along the turnpike road.

The sale will commence precisely at 12 o'clock, and the land will be laid out into lots to suit purchasers. Any chartered bank paper declared to be current in Fairfax county, by the court of that county, will be received in payment.

N. B. The sum to be raised by the above sale is \$4517 69, with interest from the first day of this month, and the expenses of sale.

Richard H. Henderson, Com'r
February 25

Charles County, Maryland.

For sale, by private contract, the valuable tract of land called **Bentley**, situated near the mouth of Port Tobacco Creek. This tract of land yields to none in this county for fertility of soil, healthfulness of situation & convenience of markets. The land being in the whole about 1000 acres, is now conveniently divided into a few farms, let to good tenants for more than 1000 dollars per annum, for the present year only; it may be divided to suit purchasers. There is besides, houses for tenants, etc. etc. a good two story frame house, with four large rooms on a floor, and four brick chimneys; the water is excellent, and the site of the dwelling house elegant; the barn, corn house and granary are newly built. More than 100 acres of this land is fit for timothy, with which grass a few acres are at this time set. The farmer and the man of wealth may here find health and amusement, combined with great profit, land in Charles County being at least 50 per cent below their average value. There is no county in the state of Maryland where lands offer to the cultivator equal advantages.

Also, two other tracts of land called the **Grange** and the **Mill Farm**, near the town of Port Tobacco, in a healthy and genteel neighborhood, containing together about 1000 acres of excellent farming land, a large portion of which is proper for timothy meadow, of which grass there is at this time 12 or 14 acres, and as much more ready to lay down. On the Grange Farm there is a large and elegant mansion with all necessary offices, an extensive commodious garden, filled with the choicest flowers, and fruits of the best quantities in great abundance, excellent water, and proverbial for its health. In a residence of 22 years, no members of the family of the present proprietors has ever been attacked by an intermittent or fall fever of any kind. Should it be desired by the purchaser, about 200 acres more might be added to these farms, in which case the quantity of acres advertised would amount to about 3000. Terms of sale made known on application to the subscriber.

F. NEWMAN.

If the above lands are not sold previous to the 19th March next, they will on that day be offered at public auction, without reserve.

Foreign Intelligence

BALTIMORE, March 13th
Captain Hobson, of the fine ship **Baidarra**, who arrived here yesterday from Liverpool, with his usual attention, has favoured the editor of the Gazette with a file of English papers, from which such extracts as appeared to be most interesting have been selected for publication to day.

Captain Hobson sailed on the 28th January, and brought private letters of as late date as the 27th, from which we have been politely favoured with extracts; the latest newspapers contain London dates to the 21st & Liverpool to the 24th, Accounts of the distresses of the poor, and of meetings to petition for a reform in Parliament, occupy a considerable portion of the English papers.

The London Gazette of Jan. 18, 1847, contains an order in Council, continuing for six months, from the 15th of February, the prohibition against transporting, without leave of the Privy Council, gun powder, saltpetre, or any sort of arms or ammunition, to the coast of Africa, West Indies, or Continent of America, the British colonies & U. States excepted.

COMMERCIAL.
Extracts from a letter, dated

Liverpool, Jan. 7th, 1847
Sir—At the commencement of the year we have again the pleasure of laying before you the state of our market, with some estimates, &c. which may be interesting, if not useful.

Our comparative import of Cotton for the last three years stands thus, 1844, 185,632, 1845, 72,714, 1846, 278,385.

Cotton. The demand for goods and Orleans has continued pretty steady during the last month, and the prices have been fully supported. For other kinds there has not been much enquiry, and Demerara and West India have given away about 1 1/2 per cent. Brazil remains dull without any material alteration in the prices. Sea Islands have been greatly interfered with by fine Pernambuco and Demerara, and the demand for fine Yarns has not been so good as for other descriptions. Upland Georgia 17 1/2 a 20 1/2, New Orleans 18d a 20d, Sea Islands 19d a 25d, Benga 1s 1d a 1s 2d, Surat 1s 3d a 1s 3d, Demerara 1s 7d a 1s 11 1/2d, Pernambuco 1s 11 1/2d a 2s, Maranhao 1s 10 1/2d a 1s 11d, Duty 8-7d per 100lb.

Though the manufacturing business continues on the whole dull, yet the demand is rather better, and the very low prices of Goods have induced the speculators to come a little into the market. The spinners also find a sale for their Yarn at moderate prices, in the expectation of an export vent as soon as the season will permit. We may therefore look for a pretty good demand for cottons generally in the spring, but cannot expect the present prices of goods and Orleans to be maintained when large arrivals take place. Brazil may perhaps experience some little advance, it is probable the arrivals will be considerably diminished in the next two months by the high prices they cost the importers.

Rice. The import of Carolina in the last year is 7310 casks, which is about 200 casks less than the import of 1845. The stock remaining on the 31st ultimo was reduced to about 700 tierces only. A few small parcels were sold as high as 44s a 45s per cwt. in the early part of the month, but on the whole there has been very little doing, owing to the high prices to which the article has risen. The holders however are generally firm, and unwilling to reduce the price, from an expectation that government will still either take the duty off all rice, or at least reduce that on American (which is 40s 1/2d per cwt) to the same as East India, viz: 7s 6d per cwt. The future currency of this article must of course very much depend on what may be done in this respect; but we may remark that as the consumption must materially be promoted by the high prices of rice, there is reason to calculate upon its maintaining higher prices here than in any ports of the Continent.

Flour. The first arrivals of flour from the United States brought 75s a 78s per barrel, and a few small sales were made about ten days ago as high as 84s. But the arrival of about 1400 barrels reduced the market suddenly, and a considerable quantity was brought forward by public auction last Tuesday at our corn Exchange, which went off at 75s a 76s per barrel: at these prices the demand is not brisk. It is said that since that sale a cargo of Philadelphia flour has been disposed of at 74s 6d and that some further sales have taken place at 73s; this last we rather question. Prices of wheat have declined a little during the past month, but the good samples of the old crop command ready sales at 19s a 20s per 70lbs. The new rates at all prices from 10s up to 18s and 19s per bushel according to quality in condition; good American wheat would command 20s per 70lbs. The question of stopping the distillation from corn still remains unsettled. The rise which took place about ten days ago was altogether occasioned by the opening of the Irish ports, where they are if any thing worse off than we are in England. The opinions that flour and wheat will advance towards spring are full as numerous as those which differently; none think that much depreciation can take place.

As the States, owing to their comparative scarcity, maintain proportionally high prices, but the sales have been limited during the last week however there has been a partial revival of the export demand, about 200 barrels New York having been purchased at 45s a 46s per cwt in bond. Our present stock computed at 8390 barrels, chiefly Monthials, to which we are not likely to receive any material addition for several months, and some disposition still appears to speculate in the article from an idea that the intermediate demand may be so extensive as to cause some advance in the spring, but this must depend on the general prospects of trade in Manchester, about which the best informed are much divided in opinion. The demand for Pearlashes has been steady, and the quantity on hand being moderate, say about 800 barrels, they appear likely to maintain their present value. 1st Pot, 56s a 58s Pearls 71s a 72s duty 11s 1d per cwt.

Flaxseed. The quantity imported last year was 10,100 hds. being about 500hds. more than the import of 1845. The price of this article, owing to some considerable arrivals from Ireland, has declined again 5s a 6d per hd, the sales have been confined to seed of the last year's band, of which several large parcels have been disposed of at 77s 6d 90s per hd for crushing. A parcel of the new seed has just arrived, but being not yet landed, the price for this description remains still unsettled. Clover seed has continued in request, and the prices are gradually improving with a prospect of a still further advance, owing to the great deficit in last year's crop. It may be quoted, Red American, from 90s a 120s.

TOBACCO—The stock of tobacco on the 1st December was 1884 hds., and there have been imported since 753; delivered for export 337, and for the home trade 331, together 671; leaving our present stock 4913 hds. There has not been much business done in tobacco last month, as the manufacturers supply themselves sparingly, in the expectation of prices being rather lower, but at present the holders are firm in our annexed currency. About the middle of the month there was some inquiry for Kentucky Tobacco for export to Spain, but our market being quite bare of this description, low Virginia were substituted, and about 220 hds. have been taken out of the market for shipment there. Maryland and Carolina there has been nothing done; indeed for the last four months there has been very little fluctuation from present prices. Virginia leaf 6d. a 1s, stemmed 10d a 1d; Kentucky none at market; ordinary and colour Maryland 6d. a 9d.—no fine yellow here.

American 6 per cent Stock 83.—

Course of Exchange—London on Amsterdam 40. Hamburg 36. 7—
Paris 25. 40. Madrid 35. Lisbon 55 1/2 Dublin 42.

It is with plea we inform you, that we shall get back from Government all the light money that has been charged since August, 1845, on American more than British ships, and we have every reason to believe that the Pilotage which has been collected in excess, will also be returned. The auction duty of five per cent on cargoes imported in American ships has ceased to be collected, and where it has been paid Parliament on its meeting will legalize its return. There is one very important stipulation in the treaty with the U. States that has been overlooked until this morning, that imports from, and exports to, the United States, whether in British or American vessels should be on the same footing, and not pay a higher duty than that paid by the most favoured nation; now to all Europe we have been paying but 1 1/2 per cent export duty; whilst to the United States we have been and are paying 1 per cent; we have therefore no doubt but that our Customs must cease to collect this extra half per cent, and that a return of that already paid them will be made on petitioning the Treasury; this however will be attended with great delay and considerable expense; so much so, that where shipments are small it may not be worth claiming. Every exertion will no doubt be made by all the claimants jointly, to endeavor to get the business settled.

Yours, very respectfully,
WM. & JAS. BROWN & Co.

Our private letter from Paris mentions a report prevalent there that one third instead of one fifth of the army of Occupation is to be withdrawn.

Our private accounts from Paris state that the illness of the King is of the most serious nature. The physicians have pronounced that gross has taken place, and that the case is hopeless.

A letter from Madrid of the 22nd January, says, "our Gazette publishes nothing new; it continues to be filled with harrangues of politicians on the King's marriage, we have here three ambassadors, nominated to different Courts; the Duke of Parque, to Paris, M. de Cavalon, to Naples; and M. de Baudry, to Berlin. None of them seem under the necessity of soon proceeding on their destination—no news from America this silence is painful."

CIRCULAR

Russian Consulate office.
22, Pavement, Moorfield, Decem-
ber, 18, (30) 1816.

The undersigned Russian Consul
General in Great Britain and Ire-
land has received instructions from
his government, dated St. Peters-
burgh November 18, (30) 1816, to the
following effect.

That according to the existing
commercial statutes in the grand
Duchy of Finland and in conformity
to the placard regarding products,
under the date of the 19th November
1814 as well as its explanation of the
3th February 1796, it is prohibited
to import in foreign ships, or bottoms,
any other goods in the Duchy of En-
gland, except the growth, productions
or manufactures of those countries,
to which the ships truly belong; un-
der the penalty of the forfeiture of
the goods, as also of the ship in which
they are imported.

The Imperial High Senate having
been informed that it has frequently
happened, and in particular in the
province of Wyberg, which now enjoys
the same privileges and regulations as
the other parts of Finland, that for-
eign vessels do not conform to these
regulations, thereby occasioning great
losses to the parties interested, and
many difficulties to the crew; to avoid
each inconvenience, the undersigned
has been ordered to make it publicly
known, that every ship bound to any
port in Finland is obliged to attend
to the above regulations; and, in or-
der to prevent all difficulties, the cap-
tain is to produce a certificate from
the resident Russian Consul, or vice
consul of the port of his loading,
that his cargo is the bona fide produc-
tion or manufacture of the country to
which his ship belongs, and owned by
the subjects of that country.

Master of the royal mint.

"Notice.—New silver Coinage.
"Royal Int. Jan. 17, 1817.—The
new silver coinage being now very
nearly finished, arrangements are
making for enabling all his majesty's
subjects in every part of Great Bri-
tain to exchange, at the same period,
the old for the new silver coin of the
realm. This exchange will commence
on or before Monday the 31st February
next; and all standard silver coin of
the realm, however defaced or reduced
in weight, by use, will be received
in exchange for the new coin, by tale,
at its nominal value."

TUESDAY, MARCH 18

Extract of a letter from Messrs. William
Ford and Co. dated Liverpool, 24th
January, 1817, to their correspondent
in this place.

"It seems likely that considerable
intercourse may subsist, this year between
this country and the ports of the Ches-
apeake, from our wants of the articles of
wheat and flour. Already considerable
importation of the latter article has taken
place. The first cargo was sold by auc-
tion and averaged about 75s; an ad-
vance afterwards took place, and about
the first instant 88 was demanded by the
holders of Philadelphia flour: since that
time the price has been gradually reced-
ing, and at a sale of 4000 barrels at-
tempted by auction in the early part of
the present week, only 800 barrels were
disposed of at from 75 to 74 per barrel.
We think it not improbable that a further
decline will take place, yet we do not
apprehend any danger of our ports clos-
ing, or of prices growing so low as to
become an unprofitable importation, un-
less the article goes wild with you—
Wheat 13s to 20s 6d per bushel of 70

The French consul at Boston, un-
der date of March 5, gives notice that
he has received instructions from his
King, informing him that no individ-
ual, whether Frenchman, or of any o-
ther nation, going to France, will
hereafter be permitted to land, unless
his passport be either given or com-
missioned by the French minister or
one of the French consuls in this coun-
try.

LATEST FROM FRANCE.

The Brig Aurelia, Leach, arrived
at Boston on Saturday the 8th inst.
in 40 days from Havre. Sailed Jan.
26, and brings Havre papers to Jan.
25, and Paris papers to Jan. 24, con-
taining London dates to Jan. 18.

The verbal news by the Aurelia
states, that public affairs in France
remained much the same as at previ-
ous dates. Nothing official had been
promulgated, and perhaps was not to
be expected, respecting the cause of
the visit of Lord Wellington to Eng-
land, &c. though there were many
shrewd conjectures on the subject, as
well by the French as the English
people. His Lordship had arrived at
Paris from London, and on the 2d
inst. paid his respects to King Louis.
According to all accounts the best har-
mony continued to exist among all the
European courts.

Charleston, March 8.

By the ship Belle, captain Leslie,
in 40 days from Bordeaux, we have
received French papers, containing
Paris dates to the 20th of January,
and London dates to the 12th. A
 cursory view of their contents, furnish-
es nothing interesting.

We advise our commercial readers
of the following extract of a letter,
dated Bordeaux, Jan. 25:—Rice
is still very scarce, and sells readily
at 50 francs. This price, however,
will only hold till we receive a certain
quantity of new, which will probably
reduce it to 40 a 42 francs. [Exempt
from duty.]

At an actual sale of cotton, Louisi-
ana brought 185 a 220 francs.

Prices Current at Bordeaux, Jan. 20.
Cotton, short staple, 170 a 190
francs; long do. 285 a 295; Rice,
new and prime, 56 a 58 francs, very
scarce and in demand; do. old, none
at market.

WEST-INDIA NEWS.

Newburyport, March 7.
The fast sailing schr. Success,
Capt. Conley, arrived here on Wed-
nesday, furnishing Haytian papers to
the latter end of January, from which
a friend has made the following trans-
lation.

HAYTIAN EDUCATION.

The English schr. Catharina An-
na, captain N. Thompson, arrived
lately at Cape Henry, having had a
fine passage of 27 days from
London.

Mr. Prince Sanders, accompanied
by four gentlemen, came passengers in
this schooner. The King is neces-
santly occupied in adopting measures
for introducing public instruction into
the kingdom.

In the city of Cape Henry there
are already national schools, on the
plans of Lancaster and Ball. Simi-
lar establishments are to be formed
in the various towns and villages of
the kingdom.

The King has afforded a distin-
guished reception to the professors,
artists and masters who have arrived
with a view to establish themselves in
Hayti, for the instruction of youth;
they have been liberally treated, and
the government has confirmed them
in their respective appointments.

It is the intention of his Majesty to
introduce the English language and
adopt the British system of national
education in Hayti.

Education is the noblest gift a mon-
arch can bestow upon a people; to
abandon French habits and French
customs, is as necessary as to imitate
British virtues is desirable. It is
high time for Hayti to adopt the lat-
ter and disengage itself from the for-
mer. Instructed from infancy in the
liberal arts and sciences, the Haytian
government will learn to appreciate
the blessings of civilization, and by
their successful attainments, furnish
the most convincing reply to the cal-
umnies of our detractors.

[Royal Gazette of Hayti.]

Departed this life yesterday morning,
of a bilious fever, in the 24th year of his
age. Mr. PETER MCGREGORY, most
sincerely regretted by those who be-
knew his worth.

His friends and acquaintance, & the
members of the St. Andrew's Society, of
which he was a member, are respectfully
invited to attend his funeral from his
late residence to the Presbyterian burial
ground, at three o'clock this afternoon.

wooded; the arable land is equal in point
of soil to any on the river, three hundred
acres of which, with a large marsh, may
be enclosed with a fence of 200 yards
between the head of Chicamuxin Creek
and the river. The improvements con-
sist of a small and convenient dwelling
house, with two rooms below and two a-

Fifty Dollars Reward.

Ran away from the subscriber, on or
about the 22 instant a negro man named
SAM. He is a blacksmith by trade,
aged about twenty five years, about 5
feet eight or ten inches in height, has a
pleasing countenance, shows his teeth
more than is usual when he laughs, and
is uncommonly plausible in his conver-
sation and manner.

I will pay the above sum to any per-
son who shall apprehend the above man,
and secure him so that I may reco-
ver him again, provided he is appre-
hended to the north of the Potomac,
and thirty dollars if apprehended in
Virginia or the district of Columbia,
south of the Potomac.

JAMES KENNEDY & SON,

ROUSE LERS, KING STREET,
Have just received from LEE'S PA-
TENT MEDICINE Store, No. 46
Maiden Lane, N. York,
A FRESH SUPPLY

Of the following genuine Medicines.
**For the prevention and cure of Bi-
lious and Malignant Fevers, is
recommended**

Hahn's Anti-Bilious Pills.

THIS Medicine has been attended
with a degree of success highly grateful
to the inventor's feelings, in several parts
of the West Indies, and the Southern &
Middle States, particularly in N. York,
Philadelphia, Baltimore, Petersburg,
Richmond, Norfolk, Edenton, Wilming-
ton, Charleston, and Savannah. The
testimony of a number of persons at each
of the above places, can be adduced, who
have reason to believe, that a timely use
of his salutary remedy has, under Provi-
dence, preserved their lives, when in the
most alarming circumstances.

Facts of this conclusive nature speak
more in favour of a medicine than col-
umns of pompous eulogy, founded on
mere assertion.

It is not, indeed, presumptuously pro-
posed as an infallible cure, but the inven-
tor has every possible reason that can re-
sult from extensive experience, for be-
lieving that a dose of these Pills, taken
once in every two weeks, during the
prevalence of our bilious fevers, will
prove an infallible preventative; and
further, that in the earlier stages of those
diseases, their use will very generally
succeed in restoring health, and frequen-
tly in cases esteemed desperate, and be-
yond the power of common remedies.

The operation of these pills is perfectly
mild, so as to be used with safety by per-
sons in every situation, and of every age.

They are excellently adapted to carry
off superfluous bile & prevent its mor-
bid secretions—to restore & amend the
appetite—to produce a free perspiration
and thereby prevent colds which is so of-
ten of fatal consequences. A dose never
fails to remove a cold if taken on its first
appearance—they are celebrated for re-
moving habitual costiveness—sickness at
the stomach and severe head-ache—and
ought to be taken by all persons on a
change of climate.

They have been found remarkably effi-
cacious in preventing and curing disor-
ders attendant on long voyages, and
should be procured and carefully preserv-
ed for use by every seaman.

**HAMILTON'S WORM DES-
TROYING LOZENGES.**

Which have cured an immense num-
ber of persons of both sexes, of every age
and in every situation, of various dan-
gerous complaints arising from worms,
and from obstructions or foulness in their
stomach and bowels.

This medicine bears no analogy what-
ever to others of similar title so com-
monly complained of, as operating with
violence; on the contrary, a particular
excellence of this remedy is its being
suited to every age and perfectly in-
nocent, and is also mild in its operation
cannot injure the most delicate pregnant
lady or the tenderest infant of a week old,
should no worms exist in the body; but
will, without pain or griping, cleanse the
stomach and bowels, of whatever is foul
or offensive, and thereby prevent the pro-
duction of worms, and many fatal disor-
ders. The lozenges are particularly
efficacious in carrying off all gross hu-
mours and eruptions, feverish and bilious
complaints, and are the safest and mild-
est purgative that can be used on any
occasion.

DESCRIPTION OF WORMS.

And the symptoms by which they are
known:

Worms which infest the human body,
are chiefly of four kinds, viz.—The Tere-
bra, or large round worm; the Ascaris,
or small man-worm; the Cucurbitina,
or short, flat, white worm; and
lastly, the Tenuia, or tape-worm, so cal-
led from its resemblance to tape. This
is often many yards long, and is full of
points. It is most hurtful and most diffi-
cult to remove.

Among the symptoms attending worms
are—disagreeable breath, especially in
the morning; bad and corrupted gums;
itching in the nose, and about the seat;
convulsions, epileptic fits, and sometimes
privation of speech; starting and grind-
ing of the teeth in sleep; irregular ap-
petite, sometimes loathing food, and some-
times voracious; purging, with slimy &
acid stools; vomiting; large and hard
belly; pains and sickness at the stom-
ach; slow fever, with small and ir-
regular pulse; a dry cough; excessive
thirst; sometimes pale and unhealthy
countenance, and sometimes the face
red and flushed.

Persons afflicted with any of the above
symptoms, should have immediate re-
course to Hamilton's Worm Destroying
Lozenges, which have been constantly
attended with success, in all complaints
similar to those above described.

A dose of this medicine given occa-
sionally during the warm season, will ef-
fectually prevent "the vomiting and
grinding of chint"—a dreadful dis-
order, which usually destroys the health
of the infant part of our citizens.
 likewise the oldest and m

remedy known, and was restored
to health and strength a great number.
In an advanced stage of this fatal
complaint. Particular and plain instruc-
tions are given for every part of the ne-
cessary treatment in such cases.
Children generally take this medicine
with eagerness; having a pleasing appear-
ance, and an agreeable taste.

**Hamilton's Essence and Extract of
Mustard.**

A safe and effectual remedy for acute
and chronic rheumatism, gout, asthmatic
gout, palsy, lumbago, numbness, white
swellings, chilblains, sprains, bruises, pain
in the face and neck, &c.

The Genuine Persian Lotion.

So celebrated among the fashionable
throughout Europe, is an invaluable cos-
metic, perfectly innocent and safe, free
from corrosive and repellant minerals,
the basis of other lotions) and of un-
paralleled efficacy in removing blemishes
of the face and skin, freckles, pimples,
effluviary redness, scurfs, tetters, ring-
worms, sunburns, prickly heat, &c. The
Persian Lotion operates mildly, without
impeding the natural, insensible perspira-
tion, which is essential to health, yet its
effects are speedy and permanent, ren-
dering the skin delicately soft and smooth
and improving the complexion.

**The Restorative Powder for the
teeth and Gums.**

This excellent preparation comforts
and strengthens the gums, preserves the
enamel from decay, and cleanses and
whitens the teeth, by absorbing all the
acrimonious slime and foulness, which
suffered to accumulate, never fails to in-
jure and finally ruin them.

Hamilton's Grand Restorative.

Is recommended as an invaluable me-
dicine for the speedy relief and perman-
ent cure of the various complaints result-
ing from dissipated pleasures, juvenile
indiscretions, residence in climates un-
favourable to the constitution, the im-
moderate use of tea, frequent intoxication
or any other destructive intemperance
the unskillful or excessive use of mer-
cury, the diseases peculiar to females at a
certain period of life, bad lyings in, &c.

HAMILTON'S ELIXIR.

Sovereign remedy for Colds, obstinate
Coughs, Asthmas, sore throats, and
approaching Consumptions, and most
disorders of the breast and lungs.

Hahn's genuine Eye Water.

A sovereign remedy for all diseases of
the eyes, whether the effect of natural
weakness or of accident.

Tooth Ache Drops.

The only remedy yet discovered which
gives immediate and lasting relief in the
most severe instances.

Lee's Ointment for the Itch.

Warranted an infallible remedy at one
application, may be used with perfect
safety on infants a week old, not con-
taining a particle of mercury or any dan-
gerous ingredient whatever, and not ac-
companied with that tormenting smart
which attends the application of other
remedies.

Lee's Infallible Ague and Fever Drops.

For the cure of agues, remittent, and
intermittent fevers.

**Han's true & genuine German Corn
Plaster.**

At the place of sale pamphlets
may be had gratis, describing cures per-
formed by the above medicines; the num-
ber, importance and respectability of
which, fully justify every article of this
advertisement.
